

The Fraxel® Portfolio of Products

Brought to you by the pioneers of fractional resurfacing and
market leader of aesthetic skin treatments

Fraxel re:pair® laser

Your Turnkey Fractional Ablative Workstation

The *Fraxel re:pair* laser is the only CO₂ laser on the market that delivers the efficacy of traditional bulk ablative lasers – without the prolonged downtime, risks or complications.

A complete and flexible portfolio of handpieces are also available. These handpieces allow for a full range of fractional ablative treatments – from skin resurfacing to minimally invasive surgical procedures both on and off the face.

Type of Laser:	CO ₂ laser, fractional
Mode of Action:	ablative
Depth of Penetration:	up to 1.6 mm
Wavelength:	10,600 nm
Energy:	up to 70 mJ per MTZ and up to 225 mJ for surgical handpieces

FDA 510(K) Clearances:

- Wrinkles
- Furrows
- Textural irregularities
- Vascular dyschromia
- Rhytides
- Fine lines
- Pigmented lesions
- Ablation, coagulation and resurfacing
Include:
laser blephoroplasty
Rhinophyma
Syringoma
Actinic and Seborrheic Keratosis

Clinical Downtime*:	approx. 48 hours
Social Downtime**:	approx. 5 days
Number of Treatments:	approx. 1

Fraxel re:store™ laser

The industry standard for effective skin resurfacing with minimal downtime

As the original Fraxel system, the *Fraxel re:store* laser is the accepted gold standard for non-ablative fractional resurfacing. Effective, safe and predictable, the laser delivers dramatic results for all skin types, on and off the face – with minimal disruption to patients' daily routine.

Remarkable results. Remarkable versatility.

The *Fraxel re:store* laser was engineered to treat across a variety of conditions, on all skin types and anywhere on the body. Since it delivers predictable epidermal turnover with each treatment, nearly all patients see immediate improvement.

Delivery System:	Fiber laser with umbilical management system
Mode of Action:	non-ablative
Depth of Penetration:	up to 1.4 mm
Wavelength:	1550 nm
Pulse Energy:	up to 70 mJ (per MTZ)

FDA 510(K) Clearances:

- Soft tissue coagulation
- Skin resurfacing
- Acne scars
- Actinic Keratoses
- Periorbital lines
- Melasma
- Surgical scars
- Pigmented lesions (age spots, sun spots and dyschromia)

Clinical Downtime*:	none
Social Downtime**:	0-3 days
Number of Treatments:	approx. 2-4

"The results we are achieving with the *Fraxel re:pair* system are remarkable by any standard, approaching those of a facelift, with very few complications and limited downtime."

CHRIS ZACHARY, MD

"The Fraxel laser remains the gold standard device for true non-ablative fractional resurfacing..."

JOELY KAUFMAN, MD

Fraxel re:fine™ laser

Gentle rejuvenation that fits patients' lifestyle – and your practice

The *Fraxel re:fine* laser combines a more superficially absorbed wavelength with the Fraxel laser's unique fractional delivery and intuitive medical software.

The result is a safe and effective treatment that improves skin texture, tone, pigmentation and periorbital fine lines – all with next to no downtime or discomfort. So patients can rejuvenate their skin over lunch and return to work or other activities on the same day.

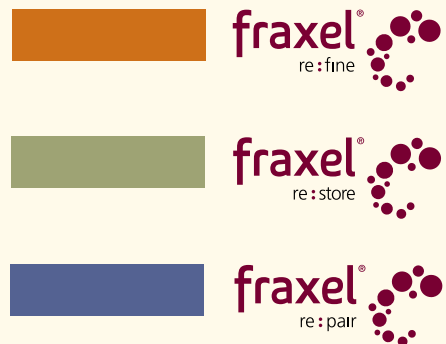

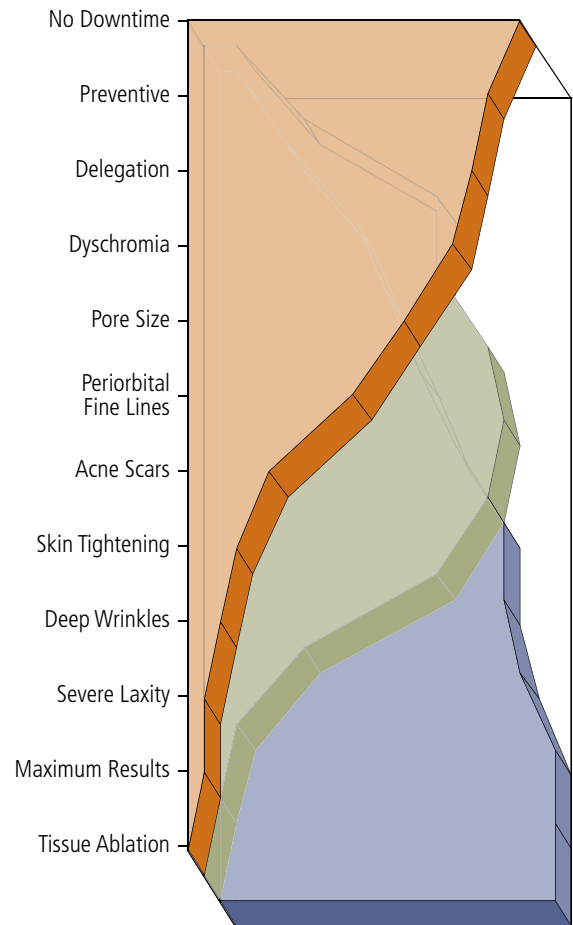

Delivery System:	Fiber laser
Mode of Action:	non-ablative
Depth of Penetration:	up to 0.7 mm
Wavelength:	1410 nm
Pulse Energy:	up to 20 mJ

FDA 510(K) Clearances:

- Skin resurfacing
- Pigmented lesions
- Periorbital fine lines
- Melasma
- Soft tissue coagulation
- Acne scars

Clinical Downtime*:	none
Social Downtime**:	0-1 days
Number of Treatments:	approx. 3-5

Which Fraxel laser is right for you?

"The last time I saw this level of enthusiasm was when Botox® was new."

GRANT STEVENS, MD

* Typical time needed for the epidermal re-epithelialization

**Typical time the patient needs before he can resume his regular activities

There's a reason that more than a half a million Fraxel laser treatments have been performed worldwide ... and counting. It's because the Fraxel laser, as the original fractional system, has an unparalleled record of research, FDA clearances and proven results.

DATA

Developed by a team of esteemed scientists, clinicians and engineers, the Fraxel family of laser treatments is proven effective.

- 25-plus FDA clearances combined
- More than 30,000 histologies
- More than **50 peer-reviewed publications** and hundreds of presentations at scientific meetings
- World-renowned luminaries as lead investigators
- Used on the widest range of skin types, indications and body sites

DESIGN

Reliant pioneered fractional technology, which relies on novel high-speed scanning systems and the Intelligent Optical Tracking® System to produce safe, effective results with fast recovery time. Key features of this advanced Fraxel technology include:

- **Consistency.** Exclusive continuous-motion delivery system ensures safe, uniform treatment with consistent results – and no stamping.
- **Efficiency.** Advanced laser sources deliver unsurpassed reliability and maximum efficiency.
- **Safety.** Intuitive safety features prevent the laser from firing unless the handpiece contacts the skin and the footswitch is depressed. Pre-programmed treatment parameters add another level of safety.
- **Microscopic treatment zones.** The laser firing rate is matched to the speed of application, preventing overtreatment and allowing for more aggressive treatment as needed.
- **Ease of use.** Thanks to the built-in safety and intuitive software interface, Fraxel laser treatment can be delegated to staff, depending on state regulations.

DELIVERY

Fraxel builds relationships with doctors and patients. In other words, we generate consumer demand for Fraxel treatment, which drives business to your practice. Then we bring it full circle with best-in-class support, from your first Fraxel patient to your first one thousand.

- **The Fraxel brand is the treatment patients ask for by name.** Our global public relations activities generate media buzz – which translates to curiosity, excitement and more patients asking for Fraxel treatment. In fact, 10,000 patients a month search for physicians at Fraxel.com.
- **Full-service support.** Not only are Fraxel lasers the gold standard in fractional laser technology. The Fraxel team provides the gold standard in customer support. Our account management team will install your Fraxel laser, train your staff, help maintain the system and provide ongoing support, such as:
 - 24/7 phone assistance ...
 - In-practice promotional materials ...
 - The **Fraxel Practice Builder** Web portal of ready-made ads, mailers and marketing tools that can be customized for your practice ...
 - Workshops and training courses ...
 - Listings on our patient Web site ...
 - And a host of other post-sale services – all at no extra charge – to ensure you get the most from your Fraxel laser investment.
